full works at that times in 1927. I had the usual tourist trip, and quite a good trip. I enjoyed it immensely. Lenin had been dead for 3 years, but, it looked like he had been asleep. I visited at the Kremlin out there. They showed me all around. I went back to England and delivered 35 more fectures.

and came back to the States.

(There was a discussion off the record.)

Mr. Pickens. I saw the old things of the czars and the things that the Queen of England and rulers away back had sent there. Some of our American people had sent in silveyware and gold, and it was very wonderful. They showed me around a good deal. There was not any reason for not doing so. They were very cordial to me. I came back. They were always cordial to me, but I could never agree with them.

with them.

Mr. Marthews. Did you ever hear of the Congress of the League

Mgainst Colonial Oppression and Innerialism?

Mr. Pickens. I heard of it, but I dever remembered it until I ready
it again, frankly, in the Congressional Record. I had forgotten about
that. You are talking about the one held in Brussels?

that. You are talking about the one held in Brussels!

Mr. Marthews, Yes.

Mr. Pickers, I was speaking in England. People there were in terested. I had beard of it at the time, but it had entirely, gone out of my mind until I read it in the Congressional Record, and someone thought I had been there. I did not go, I did not have any particular interest in it at that times.

Mr. Marthews, Did you know at the time, or subsequently when you read it in the Congressional Record, that you had been advertised as one of the delegates to the congress!

you read it it the Congressional Record, that you had been advertised as one of the delegates to the congress?

Mr. Pickers, No. I was speaking in England, and a lot of year picking me. I have been a speaker all my life, not before I went to Yale, but since I left Yale. Someone might have added a title as, a delegate. They did that many times with me, more times their that. They did not take pains to reckonwith me. I did not know I was advertised as one of the delegates.

Mr. Myriii ws. Dal you know Reger Baldwin?

Mr. Pickers, I have been knowing han quite well, quite well for many years.

Mr. Myrimws. Did Baldwin ever say anything about a terology the

Mr. Pickers, No. 1 was in England and the other place fat the time it was going on. Roger Baldwin may have known about it. He did not have a chapee to say anythore to me about it.

sure I never knew him.—I don't know whether I ever met him. I might have. I meet so many people.

Mr. Marthews, For your information, I will show you a photostatic copy of the Daily Workers for March 9, 1927, which lists you as one of the four American delegates to the First Congress of the League Against Colonial Oppression and Imperialism, held in Brussels in February of 1:27.

Mr. Pickens, I see. Well, they took that for granted, but I was not there. I came back to the United States. Yes, I see that. That is the first time I have seen that.

Mr. Marthews, Do you recall the date of your visit to Europe in

Mr. Marthews. Do you recall the date of your visit to Europe in

· Mr. Pickers? Well, I went in the fall, about the last of November ! or the first of December. Mr. Marrinews. Of 1926 or 1927!

Mr. Marthews, Of 1926 or 1927?
Mr. Pickers, 1926, and then stayed through Christmas. I was in Germany- I was in Russia. The Christmas season the Quakers ent me out of their lecturing program. I went on this other jaint and came back. Then some time in February, I think, I sailed back to the United States; that is, of course, just guessing. I stayed about 2 months or a little more abroad. I game back when they wrote this. I was either back in the United States or on the way back when that appeared in the Daily Worker. I never read the Daily Worker, only when it had things about me several times that people brought to me.

brought to me.
Mr. Martheas, You do not mean that you never read the Daily

Mr. Pickers. I do not mean that I never react a single issue. I was not a subscriber regularly. I did not read it regularly. That is true of many papers that are not in the class of the Daily Worker.

Mr. Myrnews. Do you happen to recall where you were in the first week of February 1927.

Mr. Pickers. I am sure I could not now. I do not know whether there is anything in my regords anywhere that would show me.

Mr. Myrnews. I believe it is your testimony that until you read about this particular congress in the Congressional Record, you had no recoffection of having been apprised of the fact that you were advertised as having been there?

Mr. Pickers. No; not at all. I do not remember anybody having—somebody might have—apprised me of the fact that I had been.

Mr. Mysox. This was the trip after you spent the Christmas season up in Russia?

Mr. Mysox. This was the son up in Russia?

Son up in Russia?

Mr. Pickeys. And Germany.

Mr. Mysox. But you came back to England and delivered 30 more.

Mr. Pickeys, Yes, sir.
Mr. Mysov. These lectures would have to be delivered from the early part of January after you came back!
Mr. Pickeys, Not too early in January, because I think it was along the last port of January before I got sack to England. I am not certain of that:

Mr. Masos. Then, if it was along toward the last of January that you came back to England and you delivered 30 lectures after that before comings back to America, that would mean that you would have to spond at least 20 days or so in England?

Mr. Pickens, Just about a month.

Mr. Mason, And that would carry you into at least the middle of February, if not toward the latter end of February?

Mr. Pickens, Yes.

Mr. Mason, So, according to that, he would be scheduled to deliver this series of lectures at least during the first 2 weeks of February; maybe the first 3 weeks.

maybe the first 3 weeks.

Mr. Lickens, I think it must have been about the first 3 weeks, because I did not get back to England until the latter part of

Mr. MATTHEWS. Did you sail directly from England back to the United States?
Mr. Pickers. Back to the United States.
Mr. MATTHEWS. You did not go back to the Continent?
Mr. Pickers. Not at all. I had no further visits in the Continent.
Mr. Starres. What does that Daily Worker purport to show. Doctor?

Mr. Matthews. The Daily Worker gives a list of the delegates ostensibly sent to Brussels in the delegation from the United States. Four persons are named, William Pickens as representing the John Brown Memorial Association, and also the National Association for the Advancement of Colored People; Richard Moore as representing the American Negro Labor Congress; Roger Baldwin as representing the National Urban League; and Manuel Gomez as representing the Communist Party and also the All America Anti-Imperialist League, Mr. Mason. When was this conference or congress held?

Mr. Matthews, This congress was held the first week in February of 1927.

of 1927.

of 1927.

Mr. Mason. The first week in February?

Mr. Mason. Now, if his lecture period covered that first week in February as according to the testimony it did, it would be impossible for him to have attended that, and I imagine that that lecture course could be checked up.

Mr. Pickens, Oh, yes. John Fletcher, who arranged it. I think is still living in England, unless he got bombed, but the Quakers may remember that.

Mr. Starnes, Did you represent this John Brown Society?

Mr. Pickens, This John Brown Memorial Association—I had almost forgotten that—was organized by a colored man in Philadelphia. What they did was every verchave a pilgrimage up to John Brown's place up there in New York. I never had the privilege of going with them, but he is a man that has been knowing me practically all of my life.

Mr. Starnes, Were you a member of the association or affiliated with it in any way?

Mr. Pickens, I was a member of the John Brown Memorial Association.

Mr. Pickens, I was a member of the John Brown Memorial Association.

Mr. Status. At that particular time in 1926 and 1927 you were also working for the National Association for the Advancement of Colored People?

Mr. Prokus. Yes. This was just a side issue. It was one of the 5things that one of our friends was doing. We were not averse at all. The John Blown Memorial Association is something that amounted

The John Brown Memorial Association is something that amounted to nothing.

Mr. St. R. Vour main employment at that time was with the national association?

Mr. Pickers. Since 1920smith I started with the Treasury I was working as a full time, all time efficer for the National Association for the Solvaid ement of Colored People.

Mr. Myringws. Have you ally further explanation as to why your name was placed and up to elisated fields thay once, you know him and those fellows had used my name in another consection. I went to him. I was going to say He said, "You will win the suit, but you will win and hurt them. What they will say is, the capitalists and others are putting you to it. They will find that is the date on which they wrote the fle, and they don't own anything.

That was Arthur Garfield Hays. That was his advice, not this parlicular thing, because I did not know it was in there, and I would not have said them if I had known it. I would have just ignored it.

Mr. Martinaws, When you came back to the United States in 1927 were you publicly affiliated with or associated with an organization

Mr. Martinas. When you came back to the United States in 1927—were you publicly afaliated with or associated with an organization known at the Hards Off China Conference?

Mr. Pickess, Yes. I want to tell you about that? That is quite interesting, they dropped me and Ching Kai shek. I was a spéifker. Some young people came to my office, I think. I think the only time they came they brought two or three Chinese in New Yorks. They said here were these people to start a people's movement. This had heard me make specifies about this. They asked me if I would not say they were Commonists. I never heard the word "Commonists" applied to them until I read that in the Congressional Record. They may have been. Unit not denying that they were, because I don't know, but they told into the were interested in Ching Kai shek. They were talking about smalling Chiang Kai sheks movement. I told them they could use my name. In a few/months the thing broke up and they dropped the and Chiling Kai shek.

I went to Frankfort, and I found out the reason they ran out on me. The Commonists had been fighting Chiang Kai shek. I never knew him. The deeper met him.

The Communests had been fighting Chiang Karshek. Thever knew lim. I had never met him.

The chaining of the young people of this committee for Hahds OffChina. I have met them a single time: They came to my office when ever they wants to talk to me about anything in the N. A. C. P.

At one time they brought a cable to me from a man by the name of Earl B owder. I never had heard of him or met him. I never not him until years after that is that ant; war conference. That was the first time I ever met Earl Browder. They brought me a cablegram from him asking me, for finals. I said, "Who is he?" He was an American in Chin. Later on I found out that he was a representative.

CY MURICAN PROPICTADA of the Daily Worker. 3307 of the Daily Worker. He was interested in Change Kai shek, but I never met him dutil 1933. I think, when we had the arki war congress, or 1927, somewhere along there, when we were had not the hands off.

Mr. Stress, W. Mr. STONES. Was that about the same period of time that Earl Browder testified before our gommittee that he went to thing on a mission Dictor? Browder testment negate our common missions. Doctor?

Mr. Mythirws That is the same periods.

Mr. Mythirws That is the same periods.

All Pickers. He was there, because he sent a cable or comething asking for funds. Naturally, they had sent by name.

Mr. Pickers. Farl Browder sent you a cable from Chier?

Mr. Pickers. Yes. Exidently it come to her Daily Worker, and they evidently sent it over/hyclose voine reaghs to his. I meant nothing to me. I did not know who farl Browder was: I did not know he was a Communist. It do not know they're was: I did not know he was a Communist. It do not know they're was: I did not teneral action Chinag Karshek and so we I. Mr. Mythirws. Who were those young people.

Mr. Pickers. I would not remender their remes. Mr. Myber's new where in mythes I would not remender they were sond coming people. They were people who were interested in these may people, and they never mentioned the word "consummism" to me, not once. They never mentioned that word. mentioned that word Mr. Marini w. I believe you stated, if I maderstood you correctly, Mr. Myrimwy. I believe you stated, if I made stood you vorrectly, that you met them only in your office?

Mr. Pickess. That is the only place I met them. I don't recember speaking for them. I may have. I don't think I did, because I don't remember they had any public meetings at all, but in my office is the only place I can recall. It is something I never tried to teniendly, only in my office is the only place I can ricall seeing themewhen they came to bring their reports/and talk to me about it, and that wasn't many times. but he my one estate parts and talk to me about it, and that wasn't many times.

Mr. Mythiews. On or about March 16, 1927, do you recall having been present at a meeting at the Eabor Temple, where the Hands Off China conference organized itself?

Mr. Plyress. No: I deriot recall that. I may have been there. I may have a suggestion to make: That if the wareas will please ablay rate his answers we have a great deal of marker at the cover—it will expedite matters.

Mr. Prekry. Thank you.

Mr. Mythiews. Unless these matter is particularly relevant to the point. point.
Mr. McKens. All right.
Mr. Marthuws. According to the Dudy Worker of March 17, 1927.
The Hands Off Chipa conference organized itself at a public meeting.

at the Labor Temple at Fourteenth Street and Second Evenue, and the Duff Worker presunt reads, in part as follows:

Last it 2ds conference chose without Pickens as temporary chairman, and be was lated dadle permanent chairman, with Patrick McClettein as vocyclairman, and Vocan Wikhusen, secretary.

Does that sofresh your recollection as to whether or not you were than?

thera!

thera?

Mr. Picki S. Xo; it does not make me recall being there. They could have done that without my being there. These young people that had spodento me—I had to go out of toon often.

Mr. Myrani W. Po you recall either one of these names: Ratrick McClellan or Vivian Wilkinson?

Mr. Picki S. I do not. You and destand my position. So many people I have met and I have been to 10000 meetings and engagering at and I don't remember either one of them, but I fould not say that I did not meet them sometime and know them.

Mr. Myrani W. Firther on in the account of this meeting as it appears in the Daily Workey there appears the following:

Chirman Pickers in his opening address told how when be was in Russia.

Charman Pickets in his opening address told how when he was in Russia recently he had not 25 of the Chinese generals who were freel with indignation as they told here of his fight of China against its torough exploiters.

they told hear of hestight of China against its foreign exploiters.

Mr. Pierrys, J. may have done that. I may have speken of it. I remember mysting the Chinese generals in Russia, when they were showing no everything. There were 25 generals of General Chiang's army there. That was a sight to see, but they did not fell me anything, because they speke Chine c and I spoke English.

Mr. Myrrin ws. Does that paragraph refresh your recollection as to your presence at this conference?

Mr. Pierrys, I am telling you those things were not part of my regular work, and it has been 14 and 45 years, and I would not recall being there, because it was not important to me. It was not anything that was part of my regular work. A good many things I can re-

that was part of myfregular work. A good many things I can remember, but out of 10,000 o casions, I would not remember that, but a if the evidence is there, perhaps I was there, but I would not know it because I told you I never read the Daily Worker. I never bothered about their reports.

Mr. Sevines: But you do remember the incident about the Chinese generals:

Mr. Pickers. Oh, yes. 'I met them in Moscow.

Mr. Seviens. You do remember the incident of the young people founing to you and intere ting you in the Hands Off China movement?

Mr. Pickers, Yes

Mr. Struxts. And you do remember the fact that there was a telegram presented you from E. el Browder asking for Junes to aid Chiang Kaisshek?

Kaisshek!

Mr. Pickers, Yes.

Mr. Segres. If that account appears there, while you may not bave any independent its offection about it now, you are not prepared to say that that meeting was not held and that you did not preside as either permanent or temporary chairman. It is just one of the incidents that you do not have fixed in your mind!

Mr. Pickers. Yes: I do not have it in mind. I doubt that I presided there. They may have listed me as something there because we were interested in the Hands Off China movement.

Mr. Martinews. The Daily Worker account says that the other speakers were William F. Dunbe and Bertram D. Wolfe.

Mr. Pickiss. I do not remember them.

Mr. Martinews. Do you remember that William F. Drone and Bertram D. Wolfe were two of the oustanding leaders of the Communician Parts at that time?

Bertram D. Wolfe were two/of the outstanding leaders of the Consmunist Party at that time?

Mr. Pickers, No. I never/knew their politics.

Mr. Mayrin ws. And that Dunne still is, as a matter of fact?

Mr. Pickers, I suppose he is. I have known of him of course.

Anxiody in New York would.

Mr. Mayrinews. You do not recall at this time that Patrick McClellan and Vivian Williamson were also publicly identified as members of the Communist Pacty? the Communist Party!

Mr. Pickens, No; I do not recall. I do not recall them, in fact. I

Mr. Pickers. No: I do not recall. I do not recall them, in fact. I do not recall the two people.

Mr. Myrthews. In addition to being chairman of the Hands Off China conference, do you recall whicher or not you were a member of the general advisory committee of the organization?

Mr. Pickers, No: I do hot. You know, sometimes they use your name in places where they did not give you a chance—the general advisory committee? I do not remember that they had one. If they put me on it, I don't remember if I ever met it. They could have put me on it. If you are working with the active take liberties with your name and use it. I don't know that I would have his could if they did, because I was interested in the Hands Off China. I would not have objected if they wanted to put me on some advisory committee.

Mr. Martin ws. Did you know R chard E. Modre!
Mr. Pickixs. I have been knowing lain for a number of years.
Every colored person in New York knows him.
Mr. Martin ws. You are bysic of the fact that Moore is a publicly

professed Communist?

Mr. Pickess, I think so. We always took that for granted, I can't say that he was publicly professed. I never a lead hum. But we always took it for granted that he was a Communest.

Mr. Myrriaws. For the regird, Mr. Chaitman, I and istails that Rechard E. Moore has been a functionary of the Communest Party publicly. There is no doubt about that.

Mr. Pickess, Oh. yes.

Mr. Styrkis, Just like you took it for granted that Mr. Ross of and Mr. Farley were Democrated englishingly you haver hyard than say so.

Mr. Pickers, Yes. From his activities we always took at organized that Mr. Moore was an open member of the Communes: Party, Mr. Merrin ws. Have you resolont in very mind as to whether or not the Hands Off China conference has a Communes organizated?

Mr. Pickers, I never really even learly that. In the some of the word there were not supposed to be more than 10 of 41 Communes in the United States and not only was alread of them. If the sweeter treated in something we were interested in, we did not fertificant. The evening people of the Hands Off Grina might not have beet. They may have been of the same party I was, which was the Republican Party at that time, though I never questioned it at all and I ever had acy idea they were members of the Communist Party. I knew they were

radical and were interested in radical things, but I was not interested

in that. They knew what I was interested in Mr. Martinews. Inasmuch as these same polividuals who invited you to become chairman of this organization subsequently brought you a telegram from Earl Browder, you are not satisfied——

Mr. Pickens, I am satisfied now, but then I did not know Earl

Browder. I knew that it was an American name, because it came out of China. Earl Browder would not be Chinese. They did not mention that he was a Communist, but he was working for Chiang Kai-shek

Mr. Martnews: Did you make any speeches for the Hands Off. China movement or organization outside of the city of New York!

Mr. Pickens, No: I don't remember ever speaking for the Hands Off China. In my speeches, my many speeches in many places, I might have mentioned this China business. I don't remember making any speeches. They could not pay my way. If I was going somewhere and met a group, I might have told them that I was interested in Hands Off China; let Cl ina have its revolution as we had ours.

Mr. Myrinews. Do you recent whether or not, on or about March 26, 1927, you delivered a specifier the Hands Off China movement in. Philadelphia 🖔

Mr. Pickers, In Philadelphia? No: I don't refull. I may have, but I don't recall it. As I say, in my work and going, I might have spoken for them somewhere.

Mr. Marthews. According to the Daily Worker of March 26, 1927, and again according to the Daily Worker of March 31, 1927, you were one of the principal speakers for a Hands Off China street demonstration in Philadelphia.

Mr. Pickens. That might be just like the Brussels thing. I don't recall having any street demonstration or speaking in Philadelphia. have spoken on streets in New York sometimes.

Mr. MATTHEWS. This, was a parade which ended up down in one of the Philadelphia parks.

Mr. Pickens, It seems to me I ought to remember that if there was a parade, but I don't remember that,

Mr. Matthews. According to the account of the demonstration in the Daily Worker of March 31, 1927, on page 5, we find the following:

The last speaker: William Pickens, field secretary of the Association for the Advancement of Colered People, spoke of the growing restiveness of the oppressed colonial peoples of the world and their growing determination to throw off the yoke of world imperialism.

Mr. Pickens, You know, that is interesting. . What I mean, that is their language, volu know, and not mine. I don't recall that occasion. I don't even temember speaking.

Mr. Matthews. The other three principal speakers named here are Albert Weisbord-

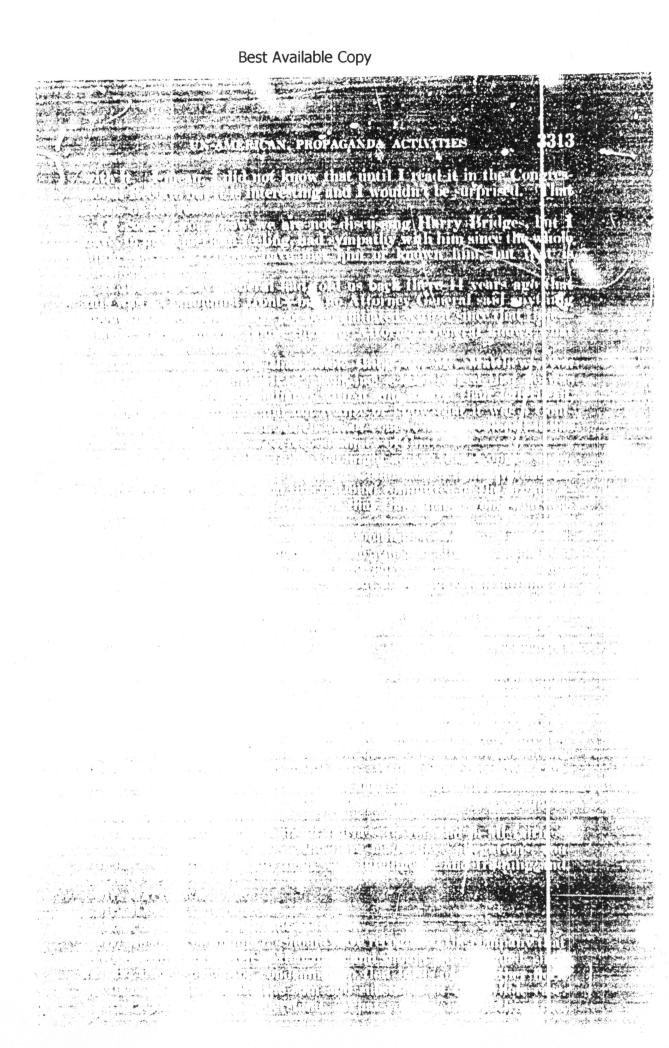

Mr. Pickens, I remember Weisbord. I met him several times.

Mr. Matthews. Do you recall whether you met him on or about this time!

Mr. Pickers, Not I can't possibly do that; but I have met Weisbord. I knew him in New York, and if I was in Philadelphia and they were having a meeting-

Here are 5 officers listed here, all of whom at the time were prominent Communist leaders in the United States.

Lwant to know on what basis you deduced it was not a Communist

Mr. Pickens. I found out that the I. L. D. was a Communist organization by observation. I found out that they were radicals. I did not ask them if they were Communists. I dropped out. I never went to a third meeting. I don't think I went to a second, but knever went to a third.

Mr. Marriews. Did you know that in 1929, the date under consideration at the present time, the International Labor Defense was an affiliate of the International Red Aid, with its healquarters in

Mr. Pickens. At the time?

Mr. Marrinews, Yes. Earl Browder. William Z. Foster. Crouch. Did you know Paul Crouch? Paul

Mr. Rickens. I do not remember.
Mr. Matthews. Paul Crouch was convicted and received a 40-year sentence for engaging in Communist activities in the United States Army in Hawaii. He was released. He served about 3 years of his term. but this connection with the I. L. D. was after his release

of his term, but this connection with the I. L. D. was after his release from prison.

Mr. Pickers. In those cases where they have my name and a few other non-Communists, it may be that not I out of 10 of them—non-Communists and all—I never did meet. In our work for the National Association for Advancement of Colored People, if someone wanted to give us a chance to spread our propaganda out, we generally took it, with no criminal intent. This was not a crime.

On my own test for them, when I met them a time or two I found they were too radical for me, not for the association, and I dropped out. I did not put my name there. They put it there, Mayle I wouldn't object. On a list where a good many of them were Communists, and it was not anything to me—it did not matter to me, because I did not know them had not met them, and was not interested in their party politics—we were interested in our program of Meero-white.

Mr. Starnes. You were perfectly willing to use the Communist Party if they were working along the same lines as you were working?

Mr. Pickens. No.—If they had said "Communist Party" I would have run out on them. I never joined in with the Communist Party at most fine. But an organization like this, which had Communists, could have had objectives like ours. I suppose some of them were members

of the N. A. C. R.

Mr. Marthews, Did you at any time write to the Daily Worker

The soil oversion for every Negro who has intelligence enough to read to send and to you.

that is, to the Daily Worker?

Mr. Pickers No. Just a minute. The committee of the Daily Worker was taking up the Scottsboro cases, and that was to send aid for the Scottsloro boys to help defend those boys. Our organization had not decided that they could take it up. Dr. Dubois and the rest by as thought maybe the boys are guilty. We decided we would not take it up. Later we took it up. When they were the only people their to do anything. I would have sent \$3 to the devil, if they were trying to do something for these boys and help them get a day in courts.

Mr. Marriews. I am not sure I got the answer to my question. Let me repeat it and you answer it. Did you write a letter to the Daily Worker itself and say in that letter:

This is one occasion for every Negro who has intelligence enough to read to soul aid to you.

Mr. Picki's If it is in connection with the Scottshoro cases, but not aid to the Daily Worker for themselve. I have to make that distinction, because if they were taking up in case—does the letter there refer to the Scottshoro cases, aid to you in this effort to defend these boys! I will have to stick to that, not aid to the Daily Worker. That sentence ought to be read in connection with the context, what ever it is, there.

Mr. Myrringws. If the letter begins, "Dear Daily Worker," and then tigges people to send aid "to you," it could not refer to anything but the Daily Worker.

Mr. Pickens: There is nothing in the letter about the Scottsboro boys.

The Pan-American Democracy sent their secretary to my office and said, "We can straighten that out for you," and, by George! they did it. They got something from the Mexican Government and brought it there. It was not being that this Government did. They were ordering it broken up.

I always arguest for France and England, and they never used for Germany, but they argued that France, England, and Germany were in the same boat. I knew they were radicals. I never asked them if they were Communists. They never asked me. Some of them were not Communists. Some of them were very intelligent people. But they did something which our conservative friends were not able to do. The head of it was a doctor with a long Spanish name who was a professor in one of the colleges in New York. Mr. Marriares. Have you eyer seen a copy of the letter which I show you, on their field stationary of the Communist Party of U.S. A. Handing a dociment to the witness!

Mr. Prekens, i.e. I have got those two articles here that I wrote forgie New Mases. One of them they did not publish.

When I you in Spaing flown in Barrelona, another American there, hearing has talk knew that I was an American. We were trying to get some legal money. He said. "I am from the United States also." He did not tellarise he was a Communist or connected with the New Mases; just an American.

I fold him I sate with the National Association for the Advancement of Colored People. He said. "You are Pickens." He said. "I will communicate with you when I get back."

When I got lack I got a letter from Joe North. I doubt that he was going by that name in Spain and I want you to write something on Negroes' of the triangle of the paragraph on page 2 of my article would explain to you why I knew he could not publish it. I wrote another article to contrast fascism with communical. I wanted to contrast it with democracy.

fascism with communical. I wanted to contrast it with democracy.

He said. I can't publish that first one."

I wrote another one, contrasting fascism with democracy, and it is here, too. I never used the word "communism," and, of course, he published that, because it was a good article, and a lot of Negro papers carried it.

I would not mind reading it to you, which is quite enlightening about my attitude in that first article. There is something I wish you would put in this record. It is my attitude toward the Scottsboro case.

(Letter from Villiam Pickens to the editor of the Republican was marked "Pickens Exhibit 1.")

Mr. Pickens There is another one here, The Fight Against Fascism.

Mr. Marthews, Before we leave this letter, I wanted to ask you if you were aware of the fact that the Communist Party exploited the fact that you wrote for the New Masses, in order to obtain subscriptions for the New Masses!

Mr. Pickens. No; I have never seen that before. They do things

Mr. MATTHEWS. This is a letter signed by Earl Browder, soliciting subscriptions for the New Masses. One of the grounds on which a subscription to the magazine is solicited is that you are a contributor. Mr. Pickens. Yes [continuing to read]:

By training and by temperament I am a Democrat, believing in the compromise of the ballotafter agitation and discussion, and having no favor for class warfare. Narrow discipline nover sufted present any humans, I could work foward these universal ends side by side with any humans, I could never become a member of minority political parties, with the limitations implied. Some of the people with whom I worked, made the mistake of many—seeming to think that a man could not look upon "radicate" as being simply human beings, without being one of the radicale. From these Lexisteed opposition, ignorant opposition. Sport I was to find also that with the radicals I was a "marked man," because I did not and could not agree with them it all things. Like Roger Buldwin I took the right which I accorded: the right to disagree in any detail. When I got to the great Anti-Imperialist Congress in Frankfort, Gormany—

I told him how they came to invite me to talk 45 minutes—the non-Communists, who had a right to bring their people. When I got there they had a plot to keep me from speaking at all, and I-heard about it. They had a colored man ready—Patterson—ready to tear up what I was ready to say in 8 or 10 minutes, because they were going to ring the bell on me. Someone I knew had talked to some of the radicals and told me what they were planning to do. I did another little bit of Uncle Remus. I said. "I have my speech in both German and English. I said, "I am going to use German again, because Patterson does not know a word of German."

The next day I started speaking, and the Russians tried to ring

The next day I started speaking, and the Russians tried to ring me down and got excited, because the Germans, 15,000 of them, were there and began to hang onto it. He tried to ring me down. The audience fireatened to tear the place apart unless they let me finish

my speech.
I told him that. He could not understand that. If you work with radicals, in anything you agree with them they take advantage of it and the other people think you are a radical, because they look at radicals as one kind of human beings. I said, "I am with the radicals or anything else against facism, but the other objectives I do not agree with"; and he would not publish it. There was another one on "The Negro Must Be Anti-Fascist." is a good article and all the Negro papers carried it. It contrasts em with democracy and has things in it that anybody would

Mr. Marriews. The New Masses of November 14, 1939, has an announcement to the effect that there will be a lecture by Mr. William-Pickens, director of branches, National Association for the Advancement of Colored People, on Friday, November 10, 8 p. m., at the Workers School. You knew that the Workers School was the official training school of the Communist Party?

Mr. Pickens. No. when you say I knew that is different. I have no doubt that they were a radical group, but we were not interested in that. What I talked to them about was not their radicalism or communism. Maybe in the current case, whatever the case we had or were dealing with—and they were white people and we let them; issten—and then I would always stand up for England and France, whatever the struggle was against fascism, and never agreed with them and would not expect to.

Thave to say to you gentlement I was known as a speaker for all these things. Everybody wanted to hear not, whether they were Communists, Republicans, or Demograts. They asked me to speak, I was listed in the Congressional Record as a lecturer for the Workste School.

I got out We were interested in the Spanish business, and we found out they were using it for something else. We were a little doubtful what they were doing with the money. We resigned.

Mr. Scarres. What was your particular interest in the Spanish situation? Was it anything other than what you said a while ago that after the unwarranted, the unjust, and brutal agoression of the Italian national against Ethiopia you would join with any group to fight the Italians!

Mr. Pickens. Without regard to their politics on the other side We were not for the Italians. It was only incidental that I wendown to Spain. I was going to Europe. They said, "Are you going to Spain!" I said, "No, the passports do not allow us in Spain. They said, "We belong to the medical bureau."

I got in it so I could see about the colored business.

Mr. Stankel After you made the trip you continued sponsoring some of these organizations?

Mr. Pickens. All I did was to see what I saw in Barcelons and the bombing. It had no relation to politics. In fact, I never bothered about the politics over there. There was one official there, to example, in Barcelons, who helped me to see the bureaus of the Loy ainsts.

Mr. Stankel Tou understand now, and we all do, that there was one faction in Spain backed by Hitler and Mussolini, and another backed by Russia!

Mr. Pickens. Was it a hotel?

Mr. Matthews. Society for Ethical Culture.

Mr. Pickens. I did not go to it, then. I was not there. It has sen alonger time than that since I have been in there.

Mr. Mason. Your cople in following your lead would become dupes and susceptible that organization, which is placing them in a dangerous position, ecause they all do not have as keen an intellect and cannot see the anger as someone like you might have been able to; and it was at least, shall we say, a culpable attitude of yours in permitting those hings to occur so often.

because they all do not have as seen an danger as someone like you might have been able to; and it was at danger as someone like you might have been able to; and it was at danger as someone like you might have been as seems here. (We sponsored many things, and most of those were perfectly American.)

Mr. Proxess. Not so often; not as often as seems here. (We sponsored many things, and most of those were perfectly American.)

Sponsored many things, and most of those were perfectly American. Sponsored many things, and most of those were accompanied to it grant the many things, and most of conference. That was on inaliciable rights. We say, 'Go there and take part in it and agree or alicapre with it.' That is because we were asking them—the N A G. P—at many of our moetings. We were saying, 'Go there and fee what they had so they were saying to because we had no funds or money to find out what politics they had, but the idea was not to sponsor what they had to say.

Mr. Mason' I am not saying that your idea was, I am saying that the general impression would be that your idea was, I am saying that the general impression would be that your idea was, I am saying that the general impression would be that your people to be exposed to their policy, and it was rather a dangerous thing.

that this man got a fair trial and did not get done off in jail.

It was the most normal thing to sign. They did not put him forward as a Communist. I suspected that he was one of the radicals like that, but that did not say he was a Communist. I would have been sympa-

thetic with his having a fair trial. . . .

Mr. Starkes. Have you ever known anybody except a Communist or a Fascist or a Nazi or somebody who is not an American to interest himself in forming an organization with reference to the conduct of trials of colors. men alleged to have violated State laws in some other nations! Did you ever know of a prominent Democrat or Republican or a prominent American citizen who was a member of these alien-inspired organizations, who interested himself in the trials or courts of other countries!

Mr. Pickens, I have known of such cases, but it was professionar, through the Civil Liberties Union. I have seen people there who were not at all Communists, who were interested in these people—

Mr. STARSES. I can understand that. You have known them through the American Civil Liberties Union, but as a usual rule it is somelody with an international viewpoint and more interested in nterfering with the affairs of the other nation than looking after

abstract justice at home.

Mr. Marriews, I will ask the witness to comment on this Carlos Prestes, on whose behalf the witness signed this letter, was the Communist International's representative in Brazil. He organized Communist International's representative in an armonic and and led an armod insurrection against the Brazilian Chyernment and for that act was arrested, tried; and convicted; and it was for his freedom after that conviction that this letter was a resident of Brazil. freedom after that conviction that this letter wa of Brazil.

How despicably fairs, alanderouf and hypocritical Hoover's talk of "bandit" is; how vile the deceit about "withdrawal of marines," can be seen not only in Nicaragus, but also in Haiti. For nearly 30 years Yankee marines have been alaughtering the Haitian, people. Their last massacre was late in 1929. "Frace"—the peace of a cemetary, was exabilished. There are none.

But in soite of the promise made a year and a haif test to subdisce "threat on period froces, they are still in Hait!] And today there is a new "threat of period disorders." When it comes, when the Haitlan peasants and workers are no longly able to tolerate Yankee rule and rise in arms—as they much rise!—the unapeaktile hypocrite in the White House will doubt-less blabber about "bandite!"

Walter white wrote fordan a shoot friendly warsing, arging him to "peconsider" the matter and allow the association to continue his defense. The Communists dictated for Jordan a born-bastic letter, which he signed at their request, telling us to get out of the case and let his business alone, that he wanted the I. L. D. You see, our Oregon representatives who went to see Jordan were colored leaders—and when these Communist "white gent'men" came and told him to fold low after them, like so many Negroes,

# THE AMERICAN MEGRO'S INTEREST IS ANTI-PASCIST By William Pickens

Hever trust simply a diplomat's words: they sometimes lie. But listen to his interests: they always tell the truth. His interests may lead toward honor or dishemor, humanity or bentality, -- but you can always trust what they say.

For the American Negro's real position, as between fascism and democracy, let us find where his interests lie, rather than try to pick our way through the masss of words uttered by his nowspapers, speech-makers, and other artists. These words are eften illegical, and sometimes even contradictory. Sometimes the word-maker does not know just where his best interest lies, and his words are confusing. But the Negro who is intelligent enough to look through the history of his 320 years in America and do a bit of thinking, cannot favor the suppression of minorities, -- of any kind of minority, racial, religious or political. His race has been controlled and rebbed by fascism during all these centuries, for fascism is nothing new in human government. It is a new name for a trick that is old, about as old an government itself. Musselini and his hemshmen gave it the current rame, but the trick was equally well known to the elder-time Caesars, to Nero and Caligula, -- and doubtless to the elder Pharachs and the newer Genghis Kahn. Fascism is the most complete megation of democracy, of liberty and equality. It is the absolute demination of the weak by the strong. And when we speak of strong and weak, we mean nothing moral, spiritual or intellectual, for the basic virtue of fascism is brute force and physical power. Its chief attributes are as devoid of moral virtue as is the idea of "fitness" in "the survival of the fittest". The fittest to survive in the brute world may be simply the sharpest claw or the biggest liar. Man has spent a million years working up toward certain moral values; fascist sem clety discards them all, and sets the slock back to the most primitive beginnings. The fascist states best known to us threw aside all religious and humane considerations and fellew only their do-
